## North Florida Rottweiler Klub

Welcome to the URKA Inc. Breed Show and Southeast Regional Sieger Show!!!

Our goal is to offer a warm welcoming place for everyone who loves the Rottweiler to build friendships and share our knowledge for the betterment of the Rottweiler. We would like all participants to help each other and to be the finest examples of sportsmanship so that everyone can leave this venue with a positive experience.

We would like to thank our judges for coming to judge our shows and to offer all of us some of their vast amount of knowledge about Rottweilers. Please show our judges that true hospitality and warmth are a pivotal part of our Rottweiler world. There will be mobile food trucks on the premises throughout both days. Please visit them Lunch breaks will be at the judges' discretion. If you want to fish in the lakes, please be aware of critters/alligators in your immediate area. For this reason no dogs are allowed in the lakes. Restrooms are located behind the show ring. Please keep your Rottweilers away from the show ring until they are ready to be shown. Please do not bring any dogs that are not entered in the class within 50 feet of the show ring. All dogs must be on a leash at all times when not crated. No tieouts allowed. Please do not approach another dog without the owners approval.

I hope that you will not only enjoy the shows, but you will be able to explore our host city, Tallahassee. There are many things to explore: Florida State Capitol, Mission San Luis, Tallahassee Museum, Alfred B. Maclay Gardens State Park, Florida Governor's Mansion, Tallahassee Automobile Museum, and countless other staples of the "big bend" of Florida.

If you see Mrs. Elizabeth Greenman (owner of Misty Lakes) throughout the weekend, please offer her your gratitude for usage of her private property to host this wonderful show. Without her open arms this venue would not have been possible.

## URKA Championship Program

### The SE (Standard Evaluation)

is not a breed test. URKA Inc. encourages all breeders to place SE on their breeding stock as URKA Inc. believes breeders should know the measurements of dogs they are breeding as well as eye colour. The SE ensures the dog has a passing hip and elbow rating, JLPP tested and is free of disqualifying fault under FCI standard. Puppy buyers are encouraged to only purchase pups whose parents possess either a SE or a Ztp. **The dog must have a passing hip and elbow rating, have been tested for JLPP and have permanent identification (tattoo or microchip).** Once the conformation and soundness qualifications have been met, the dog's traffic sureness is tested. This test includes a gun sureness test and a test to ensure the dog is stable around the public. If a dog has a SE and loses a tooth, the dog may still be bred and may also attempt the Ztp.

### The Ztp (Zuchttauglichkeitsprüfung)

is designed to select those Rottweilers who are worthy of being bred. The dog's conformation must be judged of breeding quality and free of disqualifying faults. **The dog must have a passing hip and elbow rating, have been tested for JLPP and have permanent identification (tattoo or microchip).** Once the conformation and soundness qualifications have been met, the dog's temperament is tested. This test includes a gun sureness test, a protection test, and a test to ensure the dog is stable around the public. The Rottweiler Klub of North America Inc. strongly believes that these tests are vital to maintaining the Rottweiler in type and temperament and should be the foundation of any breeding program.

### Gekört is designed

to select those Rottweilers who are the best dogs in order to improve the overall qualities of the Rottweiler. Males must be IGP 3 and females IGP 1, must have an AD and three show ratings under two different judges of SG or better. The protection routine shall be the FCI IGP 3 protection routine. The IGP rule book can be downloaded from the URKA Inc. website.

### The Gekört bis EzA

may be attempted 24 months after a dog has earned the Gekört is the highest breed suitability title available and is the lifetime breed suitability test. A dog must have sired/whelped two litters where all offspring are free of disqualifying fault according to FCI standard.

### Working Class

To compete in this class a dog must have earned an IPO/IGP title. International Prüfungsordnung (IPO) is an internationally recognized temperament test for the working breeds. The dog must pass a tracking test, an obedience test and a protection test. The exercises in all three phases of the tests are designed to demonstrate the dog's natural drive to work for a handler as well as the strength of character that it takes to have those drives molded into a disciplined behavior. It is the goal of the Rottweiler Klub of North America Inc. to promote the working Rottweiler through the IGP sport.

## Rottweiler

**TRANSLATION:** Mrs. Chris Seidler. Revised by Peter Friedrich.

**ORIGIN:** Germany.

**DATE OF PUBLICATION OF THE ORIGINAL VALID**

**STANDARD:** 15.06.2018.

**UTILIZATION:** Companion, service and working dog.

### **FCI-CLASSIFICATION:**

Group 2 Pinscher and Schnauzer type, Molossian,  
Swiss Mountain and Cattle Dogs.

Section 2.1 Molossian type, Mastiff type.

With working trial.

**BRIEF HISTORICAL SUMMARY:** The Rottweiler is considered to be one of the oldest dog breeds. Its origin goes back to Roman times. These dogs were kept as herder or driving dogs. They marched over the Alps with the Roman legions, protecting the humans and driving their cattle. In the region of Rottweil, these dogs met and mixed with the native dogs in a natural crossing. The main task of the Rottweiler now became the driving and guarding of the herds of cattle and the defence of their masters and their property. This breed acquired its name from the old free city of Rottweil and was known as the "Rottweil butcher's dog". The butchers bred this type of dog purely for performance and usefulness. In due course, a first rate watch and driving dog evolved which could also be used as a draught dog. When, at the beginning of the twentieth century, various breeds were needed for police service, the Rottweiler was amongst those tested. It soon became evident that the breed was highly suitable for the tasks set by police service and therefore they were officially recognized as police dogs in 1910.

Rottweiler breeders aim at a dog of abundant strength, black coated with clearly defined rich tan markings, whose powerful appearance does not lack nobility and which is exceptionally well suited to being a companion, service, **rescue** and working dog.

**GENERAL APPEARANCE:** The Rottweiler is a medium to large size, stalwart dog, neither heavy nor light and neither leggy nor weedy. His correctly proportioned, compact and powerful build leads to the conclusion of great strength, agility and endurance.

**IMPORTANT PROPORTIONS:** The length of the body, measured from the point of the sternum (breast-bone) to the ischiatic tuberosity, should not exceed the height at the withers by, at most, 15%.

**BEHAVIOUR / TEMPERAMENT:** The Rottweiler is good-natured, placid in basic disposition, very devoted, obedient, biddable and eager to work. His appearance is natural and rustic, his behaviour self-assured, steady and fearless. He reacts to his surroundings with great alertness **and at the same time even-tempered.**

### **HEAD**

#### **CRANIAL REGION:**

**Skull:** Of medium length, **relatively** broad between the ears.

**Forehead line** moderately arched as seen from the side. Occipital bone well developed without being conspicuous.

**Stop:** **Stop relatively strong. Frontal groove not too deep.**

#### **FACIAL REGION:**

**Nose:** Well developed, more broad than round with relatively large nostrils, always black.

**Muzzle:** The foreface should appear neither elongated nor shortened in relation to the cranial region.

**The ratio between the length of the muzzle and the length of the skull is about 1 to 1,5.** Straight nasal bridge, broad at base, moderately tapered.

**Lips:** Black, close fitting, corner of the mouth not visible, gum as dark as possible.

**Jaws/Teeth:** Upper and lower jaw strong and broad. Strong, complete dentition (42 teeth) with scissor bite, the upper incisors closely overlapping the lower incisors.

**Cheeks:** Zygomatic arches pronounced.

**Eyes:** Of medium size, almond-shaped, dark brown in colour. Eyelids close fitting.

**Ears:** Medium-sized, pendant, triangular, wide apart, set on high. With the ears laid forward close to the head, the skull appears to be broadened.

**NECK:** Strong, of fair length, well muscled, slightly arched, clean, free from throatiness, without **excessive** dewlap.

#### **BODY:**

**Back:** Straight, strong, firm.

**Loins:** Short, strong and deep.

**Croup:** Broad, of medium length, slightly rounded. Neither flat nor falling away.

**Chest:** Roomy, broad and deep (approximately 50% of the shoulder height) with well developed forechest and well sprung ribs.

**Belly:** Flanks not tucked up.

**TAIL:** In natural condition, strong, level in extension of the upper line; **while paying attention, when excited or while moving it can be carried upward in a light curve;** at ease may be hanging. **While positioned along the leg, the tail reaches approximately to the hocks or is a bit longer.**

#### **LIMBS**

**FOREQUARTERS:** Seen from the front, the front legs are straight and not placed too closely to each other. The forearm, seen from the side, stands straight and vertical. The slope of the shoulder blade is about 45 degrees to the horizontal.

**Shoulders:** Well laid back.

**Upper arm:** Close fitting to the body.

**Forearm:** Strongly developed and muscular.

**Pasterns:** Slightly springy, strong, not steep.

**Front feet:** Round, tight and well arched; pads hard; nails short, black and strong.

**Upper thigh:** Moderately long, broad and strongly muscled.

## FCI Standard Exert

Hocks: Sturdy, well angulated hocks; not steep.

**GAIT:** The Rottweiler is a trotting dog. In movement the back remains firm and relatively stable. Movement harmonious, steady, full of energy and unrestricted, with good stride.

# Standard Evaluations (SE)

URKA Standard Evaluation Title (SE): The URKA SE title is not a breed test title as it is a certified conformation analysis and consists of measurement, grading of eye color, dentition check and show critique. The dog's conformation must be judged of breeding quality and free of disqualifying faults. The owner must provide a weight certificate signed by a vet within 20 days prior to the test. The dog must have a passing hip and elbow rating, have been tested for JLPP and have permanent identification (tattoo or microchip). The Rottweiler is assessed for conformation and soundness.

The test includes everything on the dog being measured or evaluated, including: height at wither, body length, muzzle, chest depth, chest circumference, skull, eye color, bite and dentition, bone strength, head shape, cheek bone, and general behavior.

- I. Dog will be weighed, measured and critiqued. A weight (issued within 20 days of the test) may be substituted for weighing the dog if no scale is available. Character traits of the dog become more or less apparent during the weighing and measuring process.
- II. The tattoo or microchip number shall be read out loud as part of the measuring and critique.
- III. The following test will be done to establish the interaction in a group and sensitivity to noise:
  - a. The Group. The handler with dog on leash walks through a group of five to eight people. The handler and dog return to the center of the group where the dog sits. The group, when instructed by the judge, converges on the dog and handler and remains there until told by the judge to disperse.
  - b. The Gun. The handler and dog walk away from the judge. At a distance of fifteen paces, a 22 short blank starter pistol or its equivalent is fired twice with a short interval in between each shot. Should the dog have a reaction to the gunfire, this exercise may be varied and repeated at the judge's discretion. If the dog continues to show a strong reaction to gunfire, the test is stopped and the dog does not pass.

Original paperwork must be presented to Show Secretary upon registration at show. This includes registration papers and health certification papers. If titles are to be recorded on the Standard Evaluation, proof of titles must be shown (score book and current membership card from organization to the score book is held with, title certificates, etc.).
