Kerry Osborne – FCI Australia

I began my judging career and gained my speciality licence in 2007. I have since judged in most states in Australia and have travelled through Europe and the UK to develop my knowledge of our beloved breed.

I am honoured to be asked to judge your show and look forward to meeting all your dogs.

I have been involved with Rottweilers for over 40 years and have been showing and breeding for over 30 years.

I began my judging career and gained my speciality licence in 2007. I have since judged in most states in Australia and have travelled through Europe and the UK to develop my knowledge of our beloved breed.

I have shown dogs extensively and gained many Champion titles, All Breeds Best in Show winners and breed Speciality winners. I have taken many dogs through our Breed Surveys in Australia. Through my breeding programme I have Imported a dog from the UK and have had a dog I have bred exported to Europe.

I have been a committee member of the South Australian Rottweiler Club for many years and was President for a few terms. I understand the work and involvement these shows take to put on and commend everyone involved for their hard work.

Personally, I am a mother of 5 children and run a busy hairdressing and retail business in South Australia.

My judging philosophy is to judge with honesty and integrity, and I will strive to find my most complete and true Rottweiler.

Lazar Tatomir – FCI Serbia

International Judge
for FCI group I & II

My first purebred dog was a Saint Bernard in 2001. Since then, Synology life is the only way. I was eager to learn more and more about dog shows, working competitions and other breeds. I got in touch and the love for the beautiful breeds Rottweiler and Dogo Argentino. Soon after I started competing with my dogs, registered my kennel, started my breeding plan and internship for national and international judge of Serbian Kennel Klub FCI.

I help with training and dog show organizations to prepare for shows. I have competed on national and international dog shows in Europe and specialty shows for Rottweiler & Dogo. Many of my specialty all breed shows were in Serbia, UK, Ireland, Indonesia, Australia, and New Zealand. As a FCI judge I value and protect the anatomy, character, health, and functionality of every breed. I have owned Rottweilers for 8 years now and love the breed more and more every day.

Section 18B DQ – Pulled – Excused - Absent Defined

DQ – Disqualified by the Judge

Dog HAS checked in Dog HAS entered the ring

- If the DQ is for aggression or temperament, the critique ends at that point and dog leaves the ring.
- If the DQ is for reasons other than aggression or temperament (for example, missing tooth), at Judge's discretion the critique may continue as exhibition only for learning purposes of the exhibitor.
 - Critique IS completed at Judge's discretion *OR* to point of disqualification. Reason for disqualification is entered on the critique and the rating box is marked as DQ.

- This rating is also to be given if traces of operations or treatment can be observed which seems to indicate that the exhibitor wanted to deceive the judge. The same applies if the judge has ample reason to suspect operations that were intended to correct the original condition or feature (e.g.: eyelid, ear or tail)
 - Critique IS completed at Judge's discretion *OR* to point where dog is excused Critique ends with "Excused" and the reason and the rating box is marked as Excused.

Rottweiler

TRANSLATION: Mrs. Chris Seidler. Revised by Peter Friedrich.

ORIGIN: Germany.

DATE OF PUBLICATION OF THE ORIGINAL VALID

STANDARD: 15.06.2018.

UTILIZATION: Companion, service and working dog.

FCI-CLASSIFICATION:

Group 2 Pinscher and Schnauzer type, Molossian,
Swiss Mountain and Cattle Dogs.

Section 2.1 Molossian type, Mastiff type.

With working trial.

BRIEF HISTORICAL SUMMARY: The Rottweiler is considered to be one of the oldest dog breeds. Its origin goes back to Roman times. These dogs were kept as herder or driving dogs. They marched over the Alps with the Roman legions, protecting the humans and driving their cattle. In the region of Rottweil, these dogs met and mixed with the native dogs in a natural crossing. The main task of the Rottweiler now became the driving and guarding of the herds of cattle and the defence of their masters and their property. This breed acquired its name from the old free city of Rottweil and was known as the "Rottweil butcher's dog". The butchers bred this type of dog purely for performance and usefulness. In due course, a first rate watch and driving dog evolved which could also be used as a draught dog. When, at the beginning of the twentieth century, various breeds were needed for police service, the Rottweiler was amongst those tested. It soon became evident that the breed was highly suitable for the tasks set by police service and therefore they were officially recognized as police dogs in 1910.

Rottweiler breeders aim at a dog of abundant strength, black coated with clearly defined rich tan markings, whose powerful appearance does not lack nobility and which is exceptionally well suited to being a companion, service, **rescue** and working dog.

GENERAL APPEARANCE: The Rottweiler is a medium to large size, stalwart dog, neither heavy nor light and neither leggy nor weedy. His correctly proportioned, compact and powerful build leads to the conclusion of great strength, agility and endurance.

IMPORTANT PROPORTIONS: The length of the body, measured from the point of the sternum (breast-bone) to the ischiatic tuberosity, should not exceed the height at the withers by, at most, 15%.

BEHAVIOUR / TEMPERAMENT: The Rottweiler is good-natured, placid in basic disposition, very devoted, obedient, biddable and eager to work. His appearance is natural and rustic, his behaviour self-assured, steady and fearless. He reacts to his surroundings with great alertness **and at the same time even-tempered.**

HEAD

CRANIAL REGION:

Skull: Of medium length, **relatively** broad between the ears. Forehead line moderately arched as seen from the side. Occipital bone well developed without being conspicuous.

Stop: **Stop relatively strong. Frontal groove not too deep.**

Nose: Well developed, more broad than round with relatively large nostrils, always black.

Muzzle: The foreface should appear neither elongated nor shortened in relation to the cranial region.

The ratio between the length of the muzzle and the length of the skull is about 1 to 1,5. Straight nasal bridge, broad at base, moderately tapered.

Lips: Black, close fitting, corner of the mouth not visible, gum as dark as possible.

Jaws/Teeth: Upper and lower jaw strong and broad. Strong, complete dentition (42 teeth) with scissor bite, the upper incisors closely overlapping the lower incisors.

Cheeks: Zygomatic arches pronounced.

Eyes: Of medium size, almond-shaped, dark brown in colour.

Eyelids close fitting.

Ears: Medium-sized, pendant, triangular, wide apart, set on high. With the ears laid forward close to the head, the skull appears to be broadened.

BODY:

Back: Straight, strong, firm.

Loins: Short, strong and deep.

Croup: Broad, of medium length, slightly rounded. Neither flat nor falling away.

Chest: Roomy, broad and deep (approximately 50% of the shoulder height) with well developed forechest and well sprung ribs.

Belly: Flanks not tucked up.

TAIL: In natural condition, strong, level in extension of the upper line; **while paying attention, when excited or while moving it can be carried upward in a light curve;** at ease may be hanging. **While positioned along the leg, the tail reaches approximately to the hocks or is a bit longer.**

LIMBS

FOREQUARTERS: Seen from the front, the front legs are straight and not placed too closely to each other. The forearm, seen from the side, stands straight and vertical. The slope of the shoulder blade is about 45 degrees to the horizontal.

Shoulders: Well laid back.

Upper arm: Close fitting to the body.

Forearm: Strongly developed and muscular.

Pasterns: Slightly springy, strong, not steep.

Front feet: Round, tight and well arched; pads hard; nails short, black and strong.

HINDQUARTERS: Seen from behind, legs straight and not too close together. When standing free, obtuse angles are formed between the dog's upper thigh and the hip bone, the upper thigh and the lower thigh, and the lower thigh and metatarsal.

Upper thigh: Moderately long, broad and strongly muscled.

Lower thigh: Long, strongly and broadly muscled, sinewy.

Hocks: Sturdy, well angulated hocks; not steep.

Hindfeet: Slightly longer than the front feet. Toes strong, arched, as tight as front feet.

GAIT: The Rottweiler is a trotting dog. In movement the back remains firm and relatively stable. Movement harmonious, steady, full of energy and unrestricted, with good stride.

SKIN: Skin on the head: overall tight fitting. When the dog is alert, the forehead may be slightly wrinkled.

COAT

HAIR: The coat consists of a top coat and an undercoat. The top coat is of medium length, coarse, dense and flat. The undercoat must not show through the top coat. The hair is a little longer on the hindlegs.

COLOUR: Black with clearly defined markings of a rich tan on the cheeks, muzzle, throat, chest and legs, as well as over both eyes and under the base of the tail.

The SE (Standard Evaluation) is not a breed test. URKA Inc. Encourages all breeders to place SE on their breeding stock as URKA Inc. believes breeders should know the measurements of dogs they are breeding as well as eye colour. The SE ensures the dog has a passing hip and elbow rating, JLPP tested and is free of disqualifying fault under FCI standard. Puppy buyers are encouraged to only purchase pups whose parents possess either a SE or a Ztp. The dog must have a passing hip and elbow rating, have been tested for JLPP and have permanent identification (tattoo or microchip). Once the conformation and soundness qualifications have been met, the dog's traffic sureness is tested. This test includes a gun sureness test and a test to ensure the dog is stable around the public. If a dog has a SE and loses a tooth, the dog may still be bred and may also attempt the Ztp.

The Ztp (Zuchtauglichkeitsprüfung) is designed to select those Rottweilers who are worthy of being bred. The dog's conformation must be judged of breeding quality and free of disqualifying faults. The dog must have a BH, passing hip and elbow rating, have been tested for JLPP and have permanent identification (tattoo or microchip). Once the conformation and soundness qualifications have been met, the dog's temperament is tested. This test includes a gun sureness test, a protection test, and a test to ensure the dog is stable around the public. The Rottweiler Klub of North America Inc. strongly believes that these tests are vital to maintaining the Rottweiler in type and temperament and should be the foundation of any breeding program.

The KORUNG – Gekört (title) is designed to select those Rottweilers who are the best dogs in order to improve the overall qualities of the Rottweiler. Males must be IGP 3 and females IGP 1, must have an AD and three show ratings under two different judges of SG or better. The protection routine shall be the FCI IGP 3 protection routine. The IGP rule book can be downloaded from the URKA Inc. website.

The LIFETIME KORUNG - Gekört bis EzA (title) may be attempted 24 months after a dog has earned the Gekört is the highest breed suitability title available and is the lifetime breed suitability test. A dog must have sired/whelped two litters where all offspring are free of disqualifying fault according to FCI standard.

****Korung is the event and the titles earned are Gekört and Gekört bis EzA****

Working Class - to compete in this class a dog must have earned an IGP title which is an internationally recognized temperament test for the working breeds. The dog must pass a tracking test, an obedience test and a protection test. The exercises in all three phases of the 4 tests are designed to demonstrate the dog's natural drive to work for a handler as well as the strength of character that it takes to have those drives molded into a disciplined behavior. It is the goal of the Rottweiler Klub of North America Inc. to promote the working Rottweiler through the IGP sport.
